Africa is the second biggest continent in the \_\_\_\_\_. Africa is situated south of Europe. The Atlantic Ocean borders it in the West, the Indian \_\_\_\_\_ in the East. The first people probably came from Africa, that is why the \_\_\_\_\_ is also called the cradle of humanity. Along the Nile, the longest \_\_\_\_\_ in Africa, the Egyptian kingdom was created over 5000 years ago. A lot of other \_\_\_\_\_ in Africa were small and had no writing. That is why we know very little about the original \_\_\_\_\_ of Africa.

Near the end of the Middle Ages, European countries started to conquer \_\_\_\_\_ of Africa. In the beginning, they only succeeded along the \_\_\_\_\_. Throughout the 19th century, almost all of Africa had been colonized by \_\_\_\_\_ countries. That changed from 1920 through 1960. Since then, most countries in \_\_\_\_\_ were free but mostly very poor. In Africa, there are 55 independent \_\_\_\_\_.

When you look at Africa you see three parts. The North is mainly the Sahara \_\_\_\_\_. The Arabs and the Berbers and most of the people there believe in \_\_\_\_\_. The middle of Africa belongs to the Tropics and has a \_\_\_\_\_. It is warm and moist there. The people there have a dark skin color and many believe in \_\_\_\_\_ or an African religion. There is more desert in the south or colder \_\_\_\_\_. Some of the people who live here have families who came from Europe or \_\_\_\_\_.
