

## What are the outer points of Africa?

---

### Aufgaben:

1. Fill in the gaps with the right words!
2. Scan the QR code to check your answers!
3. Copy the text in your exercise book!
4. Formulate the content of the text yourself!

Use all gap words!

The northernmost point of Africa is the Ras al Abiad in \_\_\_\_\_. It is located about 11 kilometers (6.8 miles) west of the city Bizerte. The whole \_\_\_\_\_ is also called “White Cape”. The land here is flat.

The easternmost \_\_\_\_\_ of Africa is the cliff Cape Guardafui. That is ancient Italian for “look and escape!” In ancient \_\_\_\_\_, people called it “Elephant Cape”. It is located in Somalia. The whole \_\_\_\_\_ is also called “The Horn of Africa”.

The southernmost point of Africa is Cape \_\_\_\_\_. At least, if you look at it closely enough. The name is \_\_\_\_\_ for “Cape of the Needles”, which probably comes from a lot of coral reefs and \_\_\_\_\_. The southernmost point is usually called the Cape of Good \_\_\_\_\_. That is the cliff that is located more to the west. The first \_\_\_\_\_ that went around this cape was Portuguese. He was called Bartolomeo Diaz. He named the \_\_\_\_\_ “cape of the storms”.

The westernmost point of Africa is the \_\_\_\_\_ or the “Green Cape”, it is located on a peninsula together with Dakar in \_\_\_\_\_. The ground there is lava rock and only a little sand that the \_\_\_\_\_ brought there. That is why there are not a lot of \_\_\_\_\_ there.
